Description	The latest MacBook Air 13-inch model powered by the M3 chip, offering a balance of performance and portability with an 8-core CPU and 8-core GPU.	The larger 15-inch MacBook Air with the M3 chip, providing more screen real estate while maintaining the sleek, fanless design.	An upgraded 13-inch MacBook Air M3 with 16GB of unified memory and 512GB of SSD storage for enhanced multitasking and storage needs.
